(b) if so, the action taken for its early introduction in the country to check the disease?

THE MINISTER OF HEALTH AND FAMILY WELFARE (DR. C.P. THAKUR): (a) and (b) The information is being collected and shall be placed on the table of the House.

Incorrect reports by patho-labs

† 1409. SHRIMATI SAVITA SHARDA: Will the MINISTER OF HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether it is a fact that some patho-labs in the country give incorrect reports;

(b) if so, whether Government are considering to take any action against the patho-labs giving incorrect reports; and

(c) if so, by when, together with the details thereof and if not, the reasons therefor?

THE MINISTER OF HEALTH AND FAMILY WELFARE (DR. C.P. THAKUR): (a) to (c) Health being a State subject, it is the responsibility of State Governments to take necessary steps to establish effective authority for taking necessary action against the patho-labs found guilty of giving incorrect reports.

Biological warfare threat

1410. SHRI A. VIJAYA RAGHAVAN: Will the MINISTER OF HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether Government envisage any threat of biological warfare on the country in the present context;

(b) if so, the details thereof;

(c) the total number of cases of Anthrax, Typhoid, Cholera, Malaria, AIDS and Phylaria reported in the country and the fund allotted and utilized to control and prevent the same for the last three years, category-wise, year-wise and State-wise; and

(d) the steps proposed to protect from die catastrophe of biological warfare in the light of Afghanistan war?

THE MINISTER OF HEALTH AND FAMILY WELFARE (DR. C.P. THAKUR): (a) to (d) Biological agents are living organisms, or the by products of living

† Original notice of the questions was received in Hindi.

organisms, that cause diseases, incapacitation, or death when used as weapons for biological warfare. Some of the potential agents include Anthrax, plague, tularemia, small pox, marbug, ebola, Q-fever, coccidioidomycosis, acute enteric infections, yellow fever, Dengue/DHF, viral haemorrhagic fever, rickettisia etc.

(0 Natural Anthrax is endemic in some parts of the country. The data available with National Institute of Communicable Diseases is given below:—

	1999		2000		2001

Karnataka	8	5	43	3	4	2
West Bengal						

Information regarding incidence of Typhoid, Cholera, Malaria, AIDS and Filaria in different States during last 3 years is enclosed in the Statement I to Statement VII *(See* below)

National Institute of Communicable Diseases meets the expenditure from its overall budget relating to communicable diseases such as cholera, typhoid and anthrax as these not covered under any national program.

Funds allotted and utilised for National AIDS Control Project and National Anti Malaria Program for last 3 years is enclosed in the Statement VIII and Statement IX *(See* below)

00 The Government has taken following actions in the context of the present international scenario;

1. A detailed list of biological agents used as weapons prepared by the Indian Council of Medical Research along with signs and symptoms, likely method of dissemination, incubation period, lethality and the availability of vaccines, anti-microbial therapy and treatment has been circulated to Health Secretary and Director of Health Services of all States/UTs., and Central Govt, hospitals advising them to take following precautionary steps.

* Earmarking of maximum number of beds for emergency contingency
* Stocking of vaccines/sera/drugs to the extent possible.
* Setting up a special team of doctors for coordinated action. They should be sensitized on the impact of such weapons and treatment measures.

Z Two expert group meetings were held (1st & 17th October) in the Ministry of Health and Family Welfare to review the management (diagnosis, treatment, IEC activities etc.) of recently emerging diseases of public health importance like Dengue, Anthrax etc. Eminent experts in the field of medical science from different organizations in the country, senior officials of Ministry of Health & F.W., and chiefs of different Government and private hospitals in Delhi participated in the meeting and deliberated on various aspects of the bio-terrorism in the backdrop of the current global situation.

3. Two expert group meetings (18th and 21 st October, 2001) were held to finalise guidelines to be issued in CD Alert.

4. National Institute of Communicable Diseases, 22, Sham Nath Marg, Delhi-110054, an Institute under Directorate General of Health Services has been designated as the nodal agency for carrying out the tests of suspected Anthrax samples. Around the clock control room is functioning Telephone Nos. 3912901 (Between 10.00 A.M. to 6.00 P.M.) & 3971875 (Between 6.00 P.M. to 10.00 A.M.) to receive and test the suspected samples. Till the evening of 27th November, 2001, 322 suspected envelopes were received in the NICD for testing. 303 samples have already been tested, none was found positive.

5. CD Alert, a monthly Newsletter of National Institute of Communicable Diseases titled "Bioterrorism-Public Health system to Remain Alert" exclusively on Anthrax has been widely circulated. It has also been put in the Website of MOHFW (http:/mohfw.nic.in) for information of general public.

6. Do's & Don'ts has already been published in the leading National Dailies regarding Anthrax.

7. A meeting-cum workshop on Biological & Chemical Terrorism was convened by the Department of Health on 29th October, 2001 in New Delhi wherein Health Secretary, Home Secretary and Director of Health Services from various States/UTs., eminent experts in the field of medical science from different organizations in the country and heads of different hospitals in Govt, and private sector in Delhi participated and deliberated on various aspects. The representatives from the States informed the preparatory measures taken by them and assured availability of drugs in adequate quantity to tackle any situation.

8. Continuing Medical Education activities are being conducted in the Central Govt, hospitals in Delhi to sensistise the medical and paramedical personnel on biological terrorism.

9. The situation is being monitored.

Increase in Mosquitoes

† 1411. SHRI KRIPAL PARMAR: Will the Minister of HEALTH AND FAMJLY WELFARE be pleased to state:

(a) whether Government are aware that mosquitoes causing dengue and malaria are increasing;

(b) if so, whether Government propose to restart spraying of DDT under National Malaria Eradication Programme in view of ineffectiveness of other measures adopted by it;

(c) if so, the details thereof; and

(d) if not, in what manner these mosquitoes would be brought under control?

THE MINISTER OF HEALTH AND FAMILY WELFARE (DR. C.P. THAKUR): (a) Aedes Aegypt mosquito causing Dengue is widespread in different parts of the country, specially in urban areas. Its density increase in conducive and favourable conditions. Density of the Anopheline mosquito, transmitting malaria, increase during the Monsoon or the post-Monsoon season.

(b) to (d) For controlling malaria DDT continues to be used under national Anti Malaria Programme wherever effective and vectors susceptible to this insecticide.
